Password Security Tips

Made with Emergent

1. Use at least 12 characters for optimal security
2. Mix uppercase and lowercase letters
3. Include numbers and special characters
4. Avoid personal information like names or birthdays
5. Don't use common words or phrases
6. Avoid predictable patterns like '123' or 'abc'
7. Use a unique password for each account
8. Consider using a password manager
9. Enable two-factor authentication when available
